Response to Amendment

1. In response to the Final Office Action mailed on July 26, 2005, applicant has submitted an amendment filed on January 20, 2006 amending independent claims 1 and 23 by incorporating the limitation suggested by the Examiner in the Final Office Action.

Reasons for Allowance

2. Claims 1-4, 6-10 and 23-31 are allowed. The claims will be renumbered as 1-18.

The following is an examiner's statement of reasons for allowance: the closest prior art of Telle does not disclose or fairly suggest a transformation circuitry that is separate from the image processing circuitry and communicatively coupled to the image processing circuitry through an intermediate storage queue, that transforms the processed intermediate image data into a processed final image data, and the intermediate storage queue storing the one or more processed intermediate image data from the image processing circuitry awaiting additional image processing by the transformation circuitry. Hence, and in view of applicant's amendment and in combination with all of the other elements of the claims that claims 1-4, 6-10 and 23-31 are allowable over the closest prior art of Telle.

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
